

City Administrator's News and Notes

July 2020

School is around the corner and as such, please take the time to review steps to prevent the spread of COVID-19. I am sure everyone is anxious to get back into some sense of normalcy. We must all remember that these are unprecedented times and having a little patience will go a long way.

How to prevent the spread of COVID-19

- Wash hands** often for 20 seconds and encourage others to do the same.
- Use hand sanitizer** with at least 60% alcohol, if no soap or water is available.
- Cover coughs** and sneezes with a tissue, then throw the tissue away.
- Avoid touching** your eyes, nose, and mouth with unwashed hands.
- Disinfect surfaces**, buttons, handles, knobs and other places touched often.
- Avoid close contact** with people who are sick.

8 TIPS to make sure you are HURRICANE READY.

- 1 Water**
Purchase enough bottled water to last your family several days. One person needs at least 1/2 gallon per day.
- 2 Food**
Store at least 3-5 days of non-perishable food such as peanut butter, tuna, canned beans, cereals, protein bars, dried fruits, etc.
- 3 Gasoline**
Make sure to fill your car up with gasoline a day or 2 before the impending storm. Don't forget about filling your gas can for your generator too.
- 4 Cooler**
If the power does go out, keep a cooler on hand to make sure your food and medications are cold until the power returns.
- 5 Medications**
Make sure you have plenty of your prescription medications on hand as the pharmacies may be out of stock for a couple of weeks after a storm.
- 6 Flashlights/Batteries Weather Radio**
In the event that your power goes out, make sure you have a flashlight for each person. Store enough batteries (for flashlights, weather radios, etc.) to power your necessities for at least 3 days. Finally, a weather radio is a very valuable piece of equipment that every family should have no matter where you live.
- 7 Disposable Items**
Make sure you have things like paper plates, plastic utensils, diapers, paper towels, toilet paper, garbage bags, etc.
- 8 Comfort Items**
To pass the time, make sure you have books, magazines, cards, board games, etc. Also, keep your children's comfort items close by. It is nice to have something to keep them calm and busy.

Tax Rate Calculation

Senate Bill 2, also known as the Texas Property Tax Reform and Transparency Act of 2019, was passed by the Texas Legislature in 2019. At its most fundamental level, Senate Bill 2 reforms the system of property taxation in three primary ways:

- (1) lowering the tax rate a taxing unit can adopt without voter approval and requiring a mandatory election to go above the lowered rate;
- (2) making numerous changes to the procedure by which a city adopts a tax rate; and
- (3) making several changes to the property tax appraisal process.

More information on the 2020 Tax Rate Calculation can be found below.

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use *Comptroller For 50-859 Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements* or *Comptroller Form 50-884 Tax Rate Calculation Worksheet, School District with Chapter 313 Agreements*.

Water districts as defined under Water Code Section 49.001(1) do use this form but instead use *Comptroller Form 50-858 Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or *Comptroller Form 50-860 Developed water District Voter-Approval Tax Rate Worksheet*.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

STEP 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

Line	No-New-Revenue Rate Activity	Amount/Rate
1.	2019 total taxable value. Enter the amount of 2019 taxable value on the 2019 tax roll today. Include any adjustments since last year's certification; exclude Tax Code Section 25.25(d) one-fourth and one-third over-appraisal corrections from these adjustments. Exclude any property value subject to an appeal under Chapter 42 as of July 25 (will add undisputed value in Line 6). STEP 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

1. **Maintenance and Operations (M&O) Tax Rate:** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.

2. **Debt Rate:** The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

STEP 3 NNR Tax Rate and Voter-Approval Tax Rate Adjustments for Additional Sales Tax to Reduce Property Taxes		

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing or abolishing the additional sales tax. If approved, the taxing unit must reduce its NNR and voter-approval tax rates to offset the expected sales tax revenue.

This section should only be completed by a county, city or hospital district that is required to adjust its NNR tax rate and/or voter-approval tax rate because it adopted the additional sales tax.

STEP 4: Additional Rollback Protection for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O Funds to pay for a facility, device or method for the control of air, water or land pollution.

STEP 5: Voter-Approval Tax Rate Adjustment for Unused Increment Rate

The unused increment rate is the rate equal to the difference between the adopted tax rate and voter-approval tax rate before the unused increment rate for the prior three years [39]. In a year where a special taxing unit adopts a rate above the voter-approval tax rate by applying any portion of the unused increment rate, the unused increment rate for that year would be zero.

For each tax year before 2020, the difference between the adopted tax rate and voter-approval rate is considered zero, therefore the unused increment rate for 2020 is zero.[40]

This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit. [41]

Line	Activity	Amount/Rate
61.	2019 unused increment rate. Subtract the 2019 actual tax rate and the 2019 unused increment rate from the 2019 voter-approval tax rate. If the number is less than zero, enter zero. If the year is prior to 2020, enter zero.	0.000000
62.	2018 unused increment rate. Subtract the 2018 actual tax rate and the 2018 unused increment rate from the 2018 voter-approval tax rate. If the number is less than zero, enter zero. If the year is prior to 2020, enter zero.	0.000000
63.	2017 unused increment rate. Subtract the 2017 actual tax rate and the 2017 unused increment rate from the 2017 voter-approval tax rate. If the number is less than zero, enter zero. If the year is prior to 2020, enter zero.	0.000000
64.	2020 unused increment rate. Add Lines 61, 62 and 63.	0.000000

STEP 6: De Minimis Rate

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate, the rate that will raise \$500,000, and the current debt rate for a taxing unit.[42]

This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit. [43]
